JURY EXONERATES OFFICER FELTON

STATED THAT SHOOTING WAS IN SELF DEFENSE AND JUSTIFIABLE—BODY OF NELSON IS TAKEN TO MESA FOR BURIAL.

The verdict of the coroner's jury inquiring into the causes leading up to the death of John W. Nelson completely exonerated Oscar Felton, deputy city marshal, who, on last Friday morning fired four shots into the body of the unfortunate man, which resulted fatally on Sunday afternoon.

The story of the witnesses was a complete reiteration of the story of the tragedy as told by the Silver Belt three hours after the tragedy. While intoxicated Nelson met Felton in the Acme saloon, where he upbraided the officer for permitting him to remain in jail over night when it was within his power to have secured his immediate release. Felton, realizing that the man was drunk, walked from the saloon and proceeded north on Broad street. At a point just outside of the business district Nelson passed Felton. The officer spoke to him pleasantly, and in reply Nelson mumbled something. Before continuing twenty feet Nelson turned suddenly and fired two shots in rapid succession at Felton. The first shot struck the officer in the leg and knocked him down. The second one missed. The officer regained his feet and emptied his sixshooter in the direction he had witnessed the flashes. Four of the shots penetrated the body of Nelson. One punctured the bladder, which was the immediate cause of death.

After hearing this evidence the jury returned a verdict to the effect that Nelson came to his death from gunshot wounds inflicted by a pistol fired by Oscar Felton, and that the shots were fired in self defense, Nelson having fired first, twice, and wounded Felton, and the homicide was justified.

James C. Bell, J. W. Harrington, W.

G. Duncan, Ben Jones, George Porter, G. J. Ridenour and Frank Gates officiated on the jury.

The body of the dead man, accompanied by a brother, was taken to Mesa for burial yesterday morning. A brother of the deceased who was with him constantly during Nelson's last hours, denies the story that Jack Nelson, before dying, stated that he wished he had put one shot in Felton where it would have counted. While suffering intense agony Nelson remarked that he wished Felton had fired a shot that would have been more effective. On several occasions he asked how the officer was getting along and expressed satisfaction when told that he was only slightly injured and would recover.

Sidelights on the Panic

A stockbroker who has been nagged to death the last few days by a nervous friend who owns about four shares of stock, got even yesterday when he was called to the phone by the fretful one.

"What's the news?" asked the excited man.

"Brooklyn bridge suspended," shouted the broker.

"Heavens! What else?"

"The Subway is in a hole."

"I've got twenty shares of Inter-Mets," yelled the nervous man. "What else?"

"The Singer building is going up."

"Good God!"—New York World.

The postmaster of Gasconade, Mo., Daniel A. Rugb, says of De Witt's Kidney and Bladder Pills: "I am doing so well, and improving so fast in health, that I cannot say too much for your Kidney and Bladder Pills. I feel like a new man." De Witt's Kidney and Bladder Pills are sold by Hanna's Drug Store.

FAST HORSES AT ARIZONA FAIR

DAN PATCH AND CRESCOEUS NOW ON THE GROUNDS WITH BUD DOBLE'S KINEY LOU—OTHER INTERESTING EXHIBITS.

PHOENIX, November 4.—Unusual interest exists at present at the fair grounds in the different departments. Many have been employed to clean up and get in readiness the grounds and buildings. The grounds present the appearance of a small city—life and energy being evident in every direction. There are now quartered in the various live stock departments, hundreds of animals from different parts of the territory and many imported from other states for exhibition purposes and to contest in the award of premiums.

Horses of every description have been assigned to their stalls, ranging from the largest Percheron and Shires to the smallest of sheldons. In the racing department, hundreds are now here exercising on the track and have listed among them the most noted of horses. Dan Patch, the greatest of all pacers, and Crescoeus, the king of trotters, accompanied by their running pace makers are occupying their stalls. Other horses that might be mentioned, to show the class of harness horses that are entered, are Argot Boy, one of De Ryder's fast pacers and Kinney Lou, the fast trotting stallion belonging to Budd Doble. These and many other fast horses are now taking their daily workouts. A list of high class horses could be mentioned if space permitted, which would include a large number of the greatest horses known.

Many interesting exhibits have been made in the agricultural, mineral, toman's and educational departments. Amusements and attractions have been provided by the commission for those who attend, that their time may be agreeably occupied.

The fair management is using its utmost endeavor to provide entertainment

and accommodations for all who attend. For those who prefer not to secure apartments at hotels, arrangements have been made with the board of trade whereby they can procure rooms in private families.

Rates have been made by the different railroads of the territory to and from the fair that are the lowest ever known.

Has Seen Hundreds of Sea Serpents

According to Captain R. G. Candage of Ellsworth, the sea serpent is no myth. He declares that he has seen hundreds of them, but all were small. He said: "I have seen many on the coast of India, in the Bay of Bengal, and in the China and Java seas, all one to three or four feet in length, but not the big ones of the story books, and I doubt if anyone else ever did."

"Many years ago I imagined that I saw one in the straits of Florida, fifty or sixty feet in length, with a head and mane reared above the water, propelled by wriggling along, apparently at the rate of five or six miles an hour. He was a distance away from our ship, so the better to observe him I went up the mizzen rigging, and soon found out that it was a floating tree. Its roots gave the appearance of a serpent's head and mane and the seas, rippling along the tapering trunk, the wriggling motion,"—Bangor dispatch to the New York World.

CATTLE FRISK IN THE HIGH GRASS

TONTON BASIN AS IT IS VIEWED BY TONTO BILL, WHO WRITES AFTER MAKING A GENERAL TOUR OF THE CIRCUIT.

By Tonto Bill.

TONTO, Ariz., November 4.—After being held up by Salt river a few days, I had an opportunity to take a view of the dam site and dam, which had not changed much since my visit on the 17th, when it was flooded and been so ever since, so no work could be performed by Mr. O'Rourke's men.

The large power house is nearly completed, still the plant installed is not used and the reason is that it does not run as it should. Something is wrong in the mechanical construction. After landing in Tonto basin a person would really think that it is spring instead of fall, as the ground is covered with new grass and some being as high as six inches and indeed it makes the cattle kick their heels and the cattlemen have a smile on their countenance. They are rolling about with the unusually large calves trying to put brands and marks on them, which I had a chance to observe when I arrived at the Peter ranch.

I understand that work has been commenced on several new prospects in Gun creek. Several loads of iron rails have passed my doors for the Coppers on East Verde, or better known as the Clarks and Shaw mine, which has been worked for several months night and day with good results. Single Standard mine at Payson is worked by full force of men, and machinery for said mine has arrived at Flagstaff.

Bert Cullom came up on the stage on the 29th to take a look at his mine. W. J. Hyde, who has been mining in Reno pass for the last ten years and who during that time has not been absent from his mine until this summer, returned two weeks ago with the intention to stay another ten years if nothing happens. Surely he is a stayer.

It perhaps would not be out of the way to say a few words in regard to our country roads, which seem to be demoralized between Pinal creek and Roosevelt. It is really a wonder that no great damage to man or beast happens between the summit and Danford hill all along the hogback. The road between Roosevelt and Payson has been in an excellent shape until late rains, but I find W. M. Clanton on the spot at once to make the necessary repairs.

Notice. All parties indebted to Brown & Scanlon will please call and settle at our office on or before November 10. Accounts remaining unpaid after November 10 will be placed with an attorney for collection.

EIGHT TAKE THE MOURNFUL TRIP

CLIMAX JIM IS THE ONLY ONE TO ESCAPE IN THE GRAHAM COUNTY GRIND OF CRIMINAL CASES—PALMA'S DEFENSE.

Special to the Silver Belt. SOLOMONVILLE, Ariz., November 4.—The first week of district court here resulted in eight men starting on the mournful trip to Yuma and in at least two or three others qualifying for the excursion. Lee N. Stratton, district attorney, and his assistant, Mr. Crosby, are prosecuting with great vigor and skill and the lawbreakers are steadily getting what is due them.

A criminal case of considerable interest was that of Matine Palma, charged with murder. Palma's wife, it will be remembered, gave the sheriff the information which resulted in the man's arrest last summer in California. Palma lived near Central and about two years ago killed a man named Margarito Garcia. It was always supposed to have been deliberate murder, but Wiley E. Jones, attorney for Palma, produced evidence showing that Garcia had a knife in his hand when he was shot and a wicked looking dagger was offered in evidence. Some of the territory's witnesses, testified to the truth of the knife story and the prosecution immediately set to work to impeach the testimony of its own witnesses. Palma had a plausible defense, but he was convicted of murder in the second degree, the verdict being returned early Sunday morning.

The following sentences have been passed and the condemned men taken to the penitentiary: Bub Sutherland, grand larceny, one year.

Jesus Valdez, grand larceny, one year.

C. W. Woodward, forgery, one year.

Victor Burkhardt, burglary, six months.

Florentina Villa pleaded guilty to murder and was sentenced for life. This is the man whose little son found him in the courtroom and created a pitiful scene. It is the general opinion that Villa is insane.

Fernando Guerra, murder, for life. Carlos Herria, murder, indeterminate sentence ranging between ten years and life.

Matine Montana, assault with a deadly weapon, same as above except that the minimum is five years. The two last named were boys of 16 and 17 years.

So far the only acquittal was the case of Climax Jim, whom the prosecution failed to convict of forgery. Climax's attorneys made a hard fight and succeeded in so clouding the testimony that the jury would not convict.

OUR VERY BEST HOT BLAST

is the strongest and best hot blast stove made. It is a really wonderful heater (will hold fire 30 hours with half a ton of soft coal). It will burn ANYTHING—no coal is too cheap or poor for it. Half the heating power of coal goes up the chimney as gas, when ordinary heaters are used. In the O. V. B. Hot Blast, this gas is utilized and burned so that less coal is used and more heat obtained. This is accomplished by means of the Hot Blast Draft which takes in fresh air at the top of the stove, leads it to more than 600 degrees and forces it over the upper surface of the burning coal. The gas is thus thoroughly ignited and burns out 100% more heat than is obtained in ordinary heaters. This Hot Blast stove will burn less hard coal than a base burner, to heat the same room. It gives off a uniform heat and is absolutely safe. Don't worry about the price of hard coal. This Hot Blast solves the problem. Look it over and see for your self. It is made better and heavier in every way than any other similar stove sold. See it before you buy.
